Assignment 1 – Web Technology

Name: Janhavi Abhay Pimplikar

Class: TE – C

Roll No.: TECOC304

Aim:

Before coding of the website, planning is important hence students should visit different websites (Min. 5) for the different client projects and note down the evaluation results for these websites. Mention whether it is a good website or a bad website in the following format:

Sr. No.	Web URL	Purpose of website	Things liked	Things disliked	Overall evaluation
1.	https://www.geeksforgeeks.org/	Education	- Navigation bar Is convenient - Quick Links can increase navigation speed - Topic-wise arrangement of problems topic-wise	- Too much information in one page - Organization of content may feel overwhelming	Throughout **a good website** but **could be better in terms of accessibility and color scheme.** **(verdict: AVERAGE)**
2.	https:// www.tutorials point.com/index.htm	Education	- Attractive home page - Better GUI for home page and more usage of icons - Easy navigation for finding required info.	- Website layout for each topic is dull and it looks primitive - Could use better fonts and color schemes	Throughout **a good website** for the structure of content but **average in GUI.** **(verdict: AVERAGE)**

3.	https://www.javatpoint.com/	Education	• The use of graphics to denote each domain is convenient for users. • The organization of each topic and its subtopics makes the site navigable	• Times New Roman used for the header and footer regions to look plain. • The website's UI doesn't seem interactive with an average color scheme.	The website is **well structured** in terms of topic-wise content but **could improve in its UI**. **(verdict: GOOD)**
4.	https://www.studytonight.com/	Education	• Has an amazing fresh look to the webpages • Proper organization of links makes it easy to navigate the website.	• Necessary information is located at the bottom of the page • Content is less detailed as compared to other websites	The website **could improve in its content** length but has a **top-notch UI** **(verdict: GOOD)**
5.	https://www.w3schools.com/	Education	• Structured content with a relatively simple layout • The colors used are pleasant to the eyes.	• The UI is quite static which may be a bit plain to look at. • Color choices are quite good but are lackluster.	Good for **topic-wise access** and the **best in terms of accessibility**. The color palette could **be a bit brighter**. **(verdict: GOOD)**
